OSTEOPATHY.

DR. WM. CLARK, OSTROPATHIST.

Graduate of the American School of Osteopathy, Kirksville, Mo.

Osteopathy is the science of treating disease manually by the adjustments of all parts and organs to their natural relation with each other, thus removing the irritation resulting from their abnormal relations, and removing obstruction to the vital forces and fluids of the body; and by stimulating mechanically all organs to their proper functions or inhibiting abnormally active processes or movements of portions of the bodily organism. Osteopathy is a scientific method of treating disease without the use of drugs or knife. Investigation respectfully solicited.

Consultation free.

There Is An Element of Selfishness.....

In the object I seek to obtain. But what human action is void of it? How to make our selfashness bestow beneficient results upon others, and build up ourselves, is

TRUE WORLDLY WISDOM.

THE HOMESTEAD LAW, is the gift of Texas, to civilization. Before the birth of the Texas Republic, there was no provision for the protection from forced sale of a Family Homestead, upon the Statute Books of any nation of the earth. It was the idea of the Fathers of Texas, that every family should Own a Home, of which they could not be dispossessed. Therefore until every family in Texas own its own home, they are short of the standard of True Texans. Imagine a state, in which every family owned its own home. I will pay \$25.00 for the best essay, that best presents, the advantages that would accrue, to the State, from such a situation; said essay to be written and delivered to me before July 1st. 1900. The managing editor of the Houston Post, to appoint a committee of three, to pass upon the essays tendered, and reward the premium. The world moves and I believe the time has come, to start a campaign, to the end, that every family in Texas, shall own its own home. I want to see the movement STARTED IN HOUSTON.

Let Houston become, the City of Home Owners.

We must get self interest, public sentiment, local and personal pride, into the movement. I would like to see each one whose name appears in this directory support the movement. Let the one who cans lots, they are willing to sell, on long time, submit them to their real estate agent. Let the one who can furnish building material, on favorable terms to their architects, let the one who can supply money, to be secured, as partial payments, on Houston Homesteads, make it known to his financial agent. Let all who are willing to work, to try to pay for a home, consult their real estate agent, Let the movement be one, of all of the citizens of Houston. White, black, rich, poor—and never let up, until every family in Houston, owns its own home, be that large or small. It is the ripening result, of Christianized civilization. The spirit of the age beckons us onward. Let the ideals of the fathers of the nineteenth century, be embodied in the real lives of their descendants of the twentieth century; and Texas and Texans, still contribute to the progress of civilization.
